Caring for your carpet

Daily life happens. If handled quickly and carefully, spillages and stains won't permanently damage your carpet.

Use a gentle blotting or dabbing action to absorb the spillage, but don't rub, as this will cause the pile to burst.

For more helpful hints on how to best care for your carpet, visit our website brintons.com.au.

Why choose wool?

Beautifully soft, durable and sound absorbing, a wool-rich Brintons carpet makes a perfect partner for your home. It's woolly softness creates a sense of calm and tranquillity, plus it's naturally fire retardant and fall-friendly for little ones.

We carefully select the best yarns for our carpets and we're proud to be the single largest user of British wool. The fleece from 1 in 9 British sheep goes into a Brintons carpet!

We weave our carpets using our own special 80% wool, 20% nylon Brintons yarn blend - a blend we developed in the 1950s - which has been proven to give you the perfect combination of softness and durability.
